

## BUG REPORT FOR BUGGY CARS RATING WEBSITE

Website to Test: Buggy Cars Rating

URL: <https://buggy.justtestit.org/>

### Issue type: Bug

Bug ID: 01

Priority: High

Env: Test

Browser: Chrome(v90), Safari (v14.1), Firefox(v88)

OS: Mac, Windows

Scope: Logout –

Type: Session Management/Security

**Description:** If a user is logged in two different tabs at the same time and user logs out of one of them then the user is not getting logged out of the second one. This is a security concern

**Actual:** User remains logged in even after a period of time

**Expected:** Session must expire, and user must be logged out.

### Steps to reproduce:

- Open any browser Chrome/Safari/Firefox
- Go to <https://buggy.justtestit.org/>
- Login in with valid credentials
- After successful login open the above link in another tab
- The user is logged in on second tab as expected
- Now log out on the first tab
- Come back to second tab after a few mins
- User still remains logged in

### Reference Test Data:

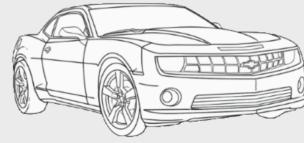

UserLogin: test@123

Password: India@12345

**Please refer the attached screenshots below:**

## **Issue type: Bug**

Bug ID: 02

Priority: High

Env: Test

Browser: Chrome(v90), Safari (v14.1), Firefox(v88)

OS: Mac, Windows

Scope: Registration Page

Type: UI Messaging

**Description:** When a new user registers on Buggy Cars Website, appropriate messaging is not displayed on certain fields. On registration page the password field does not display the password policy, after testing it was found that The Buggy cars rating website has certain rules around passwords which require certain length, must include a capital, a small letter and a special character.

**Actual:** InvalidParameter: 1validation error(s) found - minimum field size of 6,  
SignUpInput.Password

InvalidPasswordException: Password did not confirm with policy: Password not long enough

**Expected:** Specify the password policy clearly to the user. List the password rules the user must adhere to on password field, specify the length, usage of caps, small or any special characters if required. Display them when user starts typing password

### **Steps to reproduce:**

- Open any browser Chrome/Safari/Firefox
- Go to <https://buggy.justtestit.org/>
- Click Register
- Enter the information in all the fields
- For password enter all alphabets or all numbers less than 6 characters
- You will see a message InvalidParameter: 1validation error(s) found - minimum field size of 6, SignUpInput.Password
- Follow the password length rule and enter 6 characters
- You will see another message - InvalidPasswordException- Password did not confirm with policy: Password not long enough for password length

**Please refer the attached screenshots below:**

## Issue type: Bug

Bug ID: 03

Priority: High

Env: Test

Browser: Safari (v14.1), Firefox(v88)

OS: Mac, Windows

Scope: Home/Dashboard Page

Type: Usability

**Description:** A registered or unregistered user when opens up the Buggy Cars Rating website on either safari or Firefox browser and clicks the popular model or overall rating dashboards then the pages does not load, and the spinner keeps spinning. Hence the user is unable to view ratings or make a vote. This makes the website unfit for use on safari which is one of the most preferable browser

**Actual:** Spinner displays continuously and does not display any data on page

**Expected:** List of registered models must be loaded when the overall rating dashboard is clicked and information about Lamborghini Diablo should display when the popular model dashboard is clicked

### Steps to reproduce:

- Open any browser Safari/Firefox
- Go to <https://buggy.justtestit.org/>
- Click the Popular Model or Overall Rating dashboard
- The spinning wheel displays as shown in the below screenshots

### Overall Rating

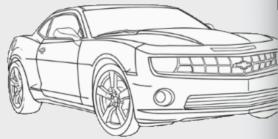

The image contains two side-by-side screenshots of a web application. Both screenshots show the same interface: a header with 'Buggy Rating' and 'Login/Register' buttons, a main title 'Buggy Cars Rating', and a central area with a car illustration. The left screenshot shows a table with two rows of data:

Make	Model	Rank	Votes	Engine	Comments
Lamborghini	Diablo	1	1646	6.0l	Function-based methodical cap... new comment added new comment added View more →
Pagani	Zonda	2	971	6.0l	Random comments CLb Random comments dR0

The right screenshot shows the same interface, but the 'Comments' section for the first row is completely blank, indicating a loading issue.
